

# AMENDMENT TO MENU

Dear Customers,

Due to the well documented issues with world supply chains, increased energy and transportation costs, we are no longer able to offer our full range of Fillet Steaks or Lobster. The price of lobster has doubled recently making it an unviable menu item, we are hopeful that once the price decreases we can re-list the product as we know it is extremely popular.

In order to retain Fillet Steak on our menus we are having to introduce a temporary supplement so that at least it is available, again we know how popular they are and did not want to de-list them entirely. As with the Lobster, once prices come back down we can remove the supplement altogether.

We really appreciate your understanding and we are hopeful these are temporary measures.

Best Wishes

Stephen Hutton  
Managing Director
